

## **PM Modi Awards 100 '5G Use Case Labs' to Educational Institutions** **Including ICAR-IARI**

Prime Minister, Narendra Modi awarded '100 5G use case labs' to colleges and educational institutions across the country during the 7th India Mobile Congress, country's biggest telecom industry event in New Delhi today (27 October 2023).

It is worth mentioning that the ICAR-Indian Agricultural Research Institute, Delhi is one of the institutions selected for the '100 5G labs initiative' that aims to promote 5G technology applications, foster innovation & strengthen India's position in the telecommunication and technology sector.

During his address at the India Mobile Congress session on October 27, Prime Minister Narendra Modi highlighted that the government's priority is to ensure that people have access to capital, resources & technology. He expressed confidence in India's youth, highlighting their creativity, speed, and energy, and their potential to surprise the world with innovative solutions & products.

He underscored the role of internet connectivity and improved speeds in improving the quality of life for people in the country. These technological advancements enable students in seeking guidance from teachers, patients in consulting with doctors, and farmers in accessing new farming techniques.

Telecom Minister, Ashwini Vaishnaw, Chairman of Reliance Jio Infocomm Limited, Akash Ambani, Chairman of the Aditya Birla Group (ABG), Kumar Mangalam Birla, Bharti Enterprises chairman, Sunil Bharti Mittal along with other dignitaries were also present at the 7th India Mobile Congress.
