

Agrovision 2023, India's Premier Agri Summit to Start on November 24

The 14th Edition of 'Agrovision will be held from November 24 to November 27, 2023 at PDKV Ground, Dabha, Nagpur in Maharashtra.

The 4-day annual event provides an exceptional platform for farmers from across the country to exchange knowledge and expertise. This significant event aspires to educate, encourage, and empower farmers by introducing them to pioneering farming technologies and allied agribusinesses that can increase their income and ensure a sustainable livelihood. Its unparalleled success makes it the most awaited agriculture festival in central India, attended by the cream of the agri community.

The mega event attracts a diverse range of participants that includes Corporates, Central and State Government Departments, PSUs, NGOs, R&D Organizations, Financial Institutes, Educational Institutes, MSMEs, and Self-Help Groups. Agrovision seamlessly blends the novel technology, expertise, experience, and business to keep agriculturists in India updated and empowered. Besides, the expo offers huge business opportunities that cannot be overlooked.
