Incubated in: 2021-22 at IARI

The startup has developed Rapid & Easy-to-Use reagent testing DEL-Strips for detection of adulteration in milk. The product is very sensitive and accurate in results. It can detect the adulteration up to the least possible limit of detection (LoD).

The strips can be used at each level of the dairy value chain for detection of adulteration in milk. It is so easy to use that even mothers at home can use it to ensure safe milk for the family.

The testing can be done without chemicals, a formal lab setup, or any technical skill.
