BioPrime Agrisolutions Pvt. Ltd.

Founder: Dr. Renuka Karandikar

Focus Area: Agricultural Inputs & Biotechnology

Website: <http://www.bioprimeagri.com/>

Email: renuka@bioprimeagri.com

Mobile: +91 - 9850037832

Foundation Year: 2016

Location: Maharashtra

Incubated in: 2020 at IARI

BioPrime Agrisolutions, a Pune-based startup, has developed their proprietary technology platforms, SNIPR (Smart Nanomolecules Induced Physiological Response) and Bionexus (Plant trait-modifying microorganisms).

They have developed alternative bio-organic and sustainable solutions for crop improvement, nutrition, and protection based on SNIPR technology. These next-generation agribiologics protect the crops from fluctuating weather, untimely rains, temperature stress, water stress, etc.

The agri-solution has targeted pathway modulation and high compatibility with all current chemicals available in the market.
