

Success Stories of Startups

Under RKVY RAFTAAR Scheme

Intello Labs Private Limited

Founder: Himani Shah Modi

Focus Area: Precision Agriculture

Website: www.intellolabs.com

Email: himani@intellolabs.com

Mobile: +91 – 98739 34554

Foundation Year: 2016

Location: Karnataka/Delhi NCR

Incubated: 2019 at IARI

The precision agriculture startup Intello Labs uses their next-generation "IntelloGrade" grading machine to assess the quality of food commodities. It provides accurate 360° scanned data on size, color, shape, and other qualities for grains, nuts, spices, and coffee cherries in 2-3 minutes, making it 10x more efficient than manual grading.

It works on the principles of computer vision, artificial intelligence, and machine learning. They lessen losses and increase customer satisfaction for food enterprises.

Intello Labs has also developed other machines like IntelloSort, IntelloPack, etc., along with a platform called 'Praman' that envisions making the horticulture trade easy by fair price discovery, competitive bidding, and building the largest network of trusted horticulture growers, sellers, and buyers.

 **50K+ Farmers Impacted**

 **100+ Paid Customers**

 **05+ Products in market**

 **1632 Lakhs Revenue**
