

AGRITECH INDIA 2025 - Where Agriculture Meets Innovation, Set to Begin on 1st August

AGRITECH INDIA 2025, India's leading international exhibition for agriculture, farm machinery, dairy, poultry, livestock and agri-processing technologies. Scheduled to take place from 1st to 3rd August 2025 at BIEC, Bangalore, this flagship event attracts over 25,000 visitors and industry professionals from more than 20 countries, serving as a dynamic platform for business networking, innovation and knowledge sharing.

Why You Should Attend AGRITECH INDIA 2025?

Extensive Exhibition: With over 350+ stalls, AGRITECH INDIA 2025 will showcase a wide spectrum of agricultural technologies. From next-gen farm machinery and smart irrigation systems to sustainable agri-processing solutions, the expo offers an all-encompassing platform for agribusinesses, entrepreneurs and technology providers.

Live Demonstrations: Experience real-time demonstrations of advanced farming equipment and innovative practices, providing hands-on exposure to the latest tools revolutionizing the agriculture industry.

Concurrent Events: The exhibition also hosts DairyTech India and the Poultry & Livestock Expo, offering specialized platforms focused on the dairy and animal husbandry sectors. These co-located events allow visitors to explore a broader range of technologies and services.

Interactive Conferences: Experts and industry leaders from all across the World will conduct engaging panel discussions, seminars and knowledge-sharing sessions on current challenges, emerging technologies, and future prospects in agriculture and allied sectors.
